Summary

Computer Science Engineering student skilled in Java, Web Development, and Databases, with practical experience building scalable applications using Spring Boot, Node.js, and APIs. Passionate about merging software development with cybersecurity principles. Eager to leverage technical expertise and a security-first mindset to contribute effectively in entry-level software development or associate security roles.

Education

PES College of Engineering
Bachelor of Engineering in Computer Science
CGPA – 7.39

Mandya, Karnataka, India
2023 - 2026

Government Polytechnic Collage
Diploma in Computer Science & Engineering
CGPA - 8.38

Chamarajanagar, Karnataka, India
2020 – 2023

Internship

Bharat Unnati (Learners Byte):

- Gained hands-on experience in Generative AI concepts, prompt engineering, and implementing LLM-driven application workflows.

Projects

Memory Game:

- Created a card-matching game using HTML, CSS, and JavaScript with flip animations.
- Added moves tracker, restart/pause options, and sound effects for better gameplay.

Hunt - Website Security Score Checker:

- Developed a domains security checker website to detect unsafe domains and assign a trust score out of 100.
- Analysed domain and malware data, Used WHOIS & Virus-Total APIs to get website credibility

Secure-Surf - Chrome Extension

- Developed a secure browsing extension to detect unsafe domains and assign a trust score out of 100,
- Used WHOIS & Virus-Total APIs to get details and calculate the Score. Developed over the "Hunt" project.

CyberShield – Smart Network Security System

- CyberShield is an intelligent, software-oriented wireless gateway that captures and analyses network traffic at the access point edge using real-time packet sniffing.
- It combines deterministic rule matching with an unsupervised Isolation Forest machine learning algorithm to instantly detect and autonomously isolate malicious actors via kernel-level firewall modifications.

Skills

Languages: Java
Web Development: HTML, CSS, JavaScript, Node.js
Databases: MySQL, MongoDB
Tools: Visual Studio Code, Git
Soft Skills: Problem Solving, Flexibility, Teamwork

Certifications

Infosys Springboard: Cyber-Security-2022 | Java Concepts-2023 | Learning Kubernetes-2025 | Blockchain 101 - 2025

Edu Skills: Android Developer Course - 2023 | Google AI-ML Virtual Internship – 2025 | AI in Cyber Security - 2026

Coursera: IBM Introduction to Machine Learning-2025 | Introduction to Applied Cryptography-2025

NPTEL: Ethical Hacking – 2025
